**THE LIVELIHOODS MOUNT EL贡 PROJECT IN KENYA**

A performance-driven coalition

The Livelihoods Funds, a private investment Fund supported by 10 private companies, has joined forces with Vi Agroforestry, an NGO and Brookside Dairy Limited, a Kenyan company, to improve the livelihoods of 30,000 farmers while contributing to climate action.

A long-term commitment

The project is implemented and monitored over 10 years to ensure sustainable impact

Result-based payments to the Livelihoods Fund

The fund receives payments according to increase in food production (milk quantity & quality) and ecosystemic services delivered by the project.

**SIMPLE SOLUTIONS AT SCALE FOR 30,000 FARMERS**

**PROJECT IMPACT ON PEOPLE & ON THE PLANET**

**Soil Carbon sequestration**

500,000 tCO$_2$e in soils after 10 years

**Soil restoration**

$\Rightarrow$ 2 millions ton of soil saved from erosion over 10 years

**Water conservation**

$\Rightarrow$ 240 millions m$^3$ more groundwater with reduced runoff

**Increased fertility**

$+30\%$ food productivity
