

First results of the « 4 per 1000 » Partners' survey

Paul LUU, Executive Secretary

Overview of the survey

S1R 1

- Survey **launched on 12th May 2017** targeting the initiative's partners (Forum)
- **2 goals** :
 - 1 - Know more about the partners' actions and research projects
 - 2 - Have a better understanding of their motivations and expectations
- **58 responses**, 25 % of the partners (as of 14th June)
- **Still open**

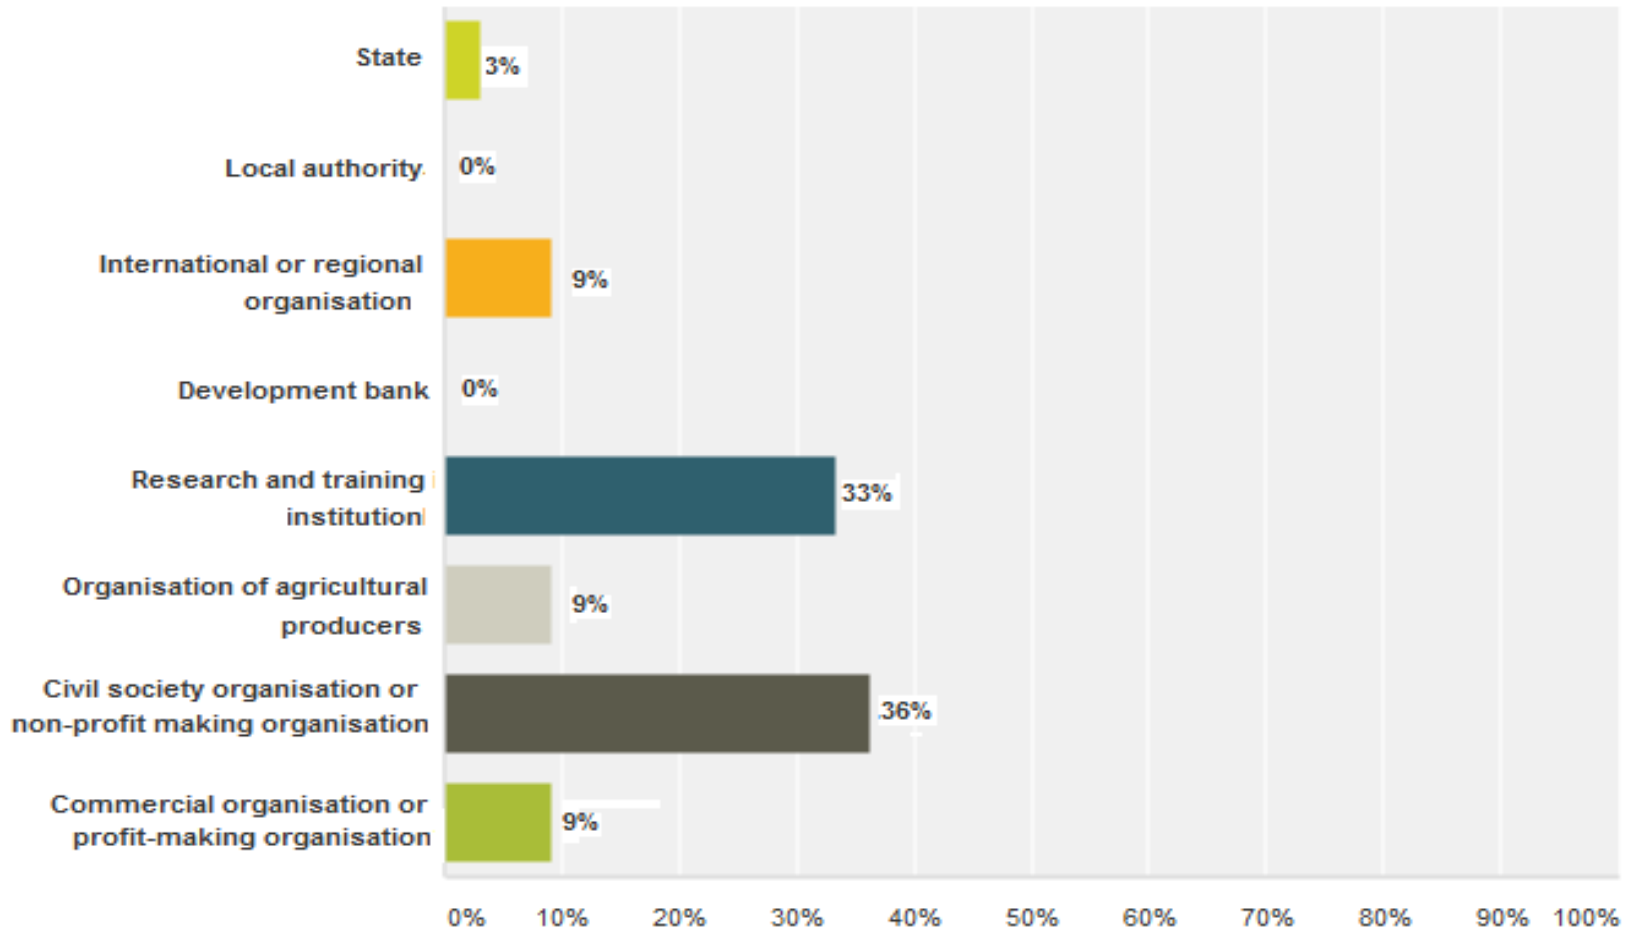

Partners actions

S1R2

Category of project leader

Partners actions

S1R 3

- The projects are **spread all over the world**, with at least one project on each continent
- Most of them are at the **direct farmers benefice**
- **Main goals** : implementation of agroecology, support to small-holders or traditional farming, development of organic farming or sustainable land management
- Most quoted practices are **agroforestry** or **reforestation**, but there are many other represented at least

Research projects

Category of project

Research projects

S1R5

Pillars of the research program

Partners' motivations & expectations

S1R 6

Expected outcomes

- contributing to and sharing of knowledge and/or experiences
- developing research on 4 per 1000
- supporting policies (including NDC)
- representing farmers

Partners expectations

- Funding: find research or projects opportunities
- Networking: interact with other researchers, project holders or partners
- Knowledge sharing

Conclusion

S1R7

- These are **only first results**
- The **survey should be completed** with more questions (closed or open) and with a more specific survey targetting financial institutions, research organisations and even other initiatives
- As a complement: a **posters session** in Montpellier and in Bonn highlighted on the **website**
- Some **answers are on going**: collaborative platform, CIRCASA project, work on the reference criteria and indicators for evaluation
